

## LANE BROWN

Goldsby, Oklahoma • (480) 310-3783 • LaneBrown21@gmail.com • [LinkedIn: Lane Brown](#)

### PROFESSIONAL SUMMARY

---

Completions Consultant and Wellsite Supervisor with 16+ years of oil and gas experience supporting drilling, completions, production, intervention, and well optimization operations across North America's leading unconventional resource plays. Proven record overseeing completion programs totaling \$320M+, including 60+ horizontal wells and 3,200+ frac stages. Extensive experience directing SIMOPS, managing contractor performance, controlling costs through WellView and AFE tracking, and delivering safe execution from rig release through production handoff.

### CORE COMPETENCIES

---

Completions Management • Wellsite Supervision • Hydraulic Fracturing • SIMOPS Leadership • Wireline Operations • Coiled Tubing Operations • Drillouts • Flowback Operations • Production Tubing Installation • Snubbing Operations • Well Control • WellView Reporting • AFE Tracking • Contractor Management • Cost Control • NPT Reduction • Production Operations • SCADA Systems • Safety Leadership

### PROFESSIONAL EXPERIENCE

---

#### HILCORP ENERGY

2026-Present

*Completions Consultant / Wellsite Supervisor*

- Re-engaged by Hilcorp Energy to support completion operations within the San Juan Basin of northern New Mexico following previous multi-year consulting assignment.
- Support a 14-well development program encompassing 1,200+ planned frac stages and approximately \$70M in project value while coordinating multi-discipline completion activities from execution through production handoff.
- Coordinate Simulfrac operations involving hydraulic fracturing, wireline, coiled tubing, drillouts, flowback, and production tubing activities while utilizing Intelligent Wellhead Systems digital wellhead automation technology to support valve control, operational efficiency, and execution safety.

#### NATIONAL OILWELL VARCO (NOV)

2025-2026

*Field Service Technician*

- Installed, calibrated, diagnosed, and repaired drilling automation and SCADA systems including Top Drives, Auto-Drillers, Electronic Drilling Recorders, Pit Volume Totalizers, and associated controls.
- Performed electrical, mechanical, software, and hardware troubleshooting to resolve field failures, reduce downtime, and restore operational continuity.
- Completed field upgrades, commissioning support, service documentation, failure reports, and customer training on safe operation of NOV drilling technologies.

#### HILCORP ENERGY

2021-2025

*Completions Consultant / Wellsite Supervisor*

- Led completion programs encompassing 50+ horizontal wells and 2,000+ frac stages, supporting development projects exceeding \$250M in cumulative value within the Point Pleasant section of the Utica Shale.
- Coordinated up to 10 service companies and 25+ field personnel across frac, wireline, coiled tubing, drillout, flowback, workover rig, snubbing, water transfer, crane, sand, rental, and mechanical support operations.
- Managed completion budgets exceeding \$5M per well through WellView reporting, vendor ticket approvals, daily cost tracking, AFE monitoring, and management reporting.
- Directed operations from rig release through production handoff, including site prep, valve installation, toe prep, TCP and tractor runs, frac execution, drillouts, production tubing installation, wellheads, and flowback.
- Resolved equipment failures, logistics constraints, weather delays, pressure anomalies, contractor coordination issues, valve problems, flowback restrictions, and schedule disruptions to minimize NPT.
- Verified critical field details including valve alignment, plug and perforation depths, frac schedule accuracy, sweep timing, tubing tallies, tool placement, and well-specific paperwork before execution.
- Supported high-pressure completion programs involving wells exceeding 20,000 feet and treating pressures greater than 10,000 psi while maintaining safe, hands-on field oversight.

#### KLX ENERGY SERVICES

2021

*Equipment Operator - Coiled Tubing*

- Performed coiled tubing intervention services throughout Oklahoma's SCOOP and STACK plays, supporting cleanouts, milling, fishing, drillouts, and production well restoration.
- Conducted drillout operations using 2.375-inch coiled tubing in 4.5-inch and 5.5-inch casing at depths exceeding 20,000 feet.
- Supported multi-stage coil frac operations, nitrogen lifting, acid stimulation, scale removal, pipeline pigging, mixing plant services, and pump support during workover and drillout operations.

#### DOWNHOLE TECHNOLOGY

2014-2020

*Senior Wellsite Advisor - Frac Plugs & Downhole Tools*

- Served as technical field advisor supporting plug-and-perf completion programs across the Permian, Eagle Ford, Haynesville, Marcellus, Utica, Woodford, Barnett, and Canadian resource plays.
- Supported an estimated 7,500+ frac plug deployments across six years of completion operations for major operators throughout North America.

- Advised wireline crews, completion consultants, and operator representatives on pump-down procedures, setting tool configuration, plug assembly, troubleshooting, and execution improvements.
- Managed pre-job planning, equipment readiness, job execution support, and field reporting while maintaining detailed plug-run records and operational performance tracking.
- Selected to support complex jobs, train new personnel, and provide guidance on computer work, plug-and-perf execution, wireline coordination, and setting tool assembly and disassembly.

#### **FRAC TECH SERVICES 2013-2014**

##### *Wireline Operator*

- Executed plug-and-perf operations, casing bond logs, production packer installations, toe preparation services, and completion support activities across multiple unconventional basins.
- Operated and maintained wireline trucks, cranes, pressure control equipment, lubricators, perforating systems, setting tools, and logging equipment.
- Built, serviced, and maintained multiple setting tool configurations including Baker 10, Baker 20, Owens Shorty, and 3-5/8 Compact systems.

#### **LIME ROCK RESOURCES**

**2012-2013**

##### *Lease Operator / Production Pumper*

- Managed daily operations of producing oil and gas wells and production facilities throughout the Permian Basin, including surveillance, reporting, and lease maintenance.
- Monitored artificial lift systems including rod pumps, ESPs, gas lift systems, and production automation equipment to support reliable field performance.
- Tracked production volumes, downtime events, gauge readings, facility conditions, and operational issues while recommending corrective actions to improve production and reliability.

#### **BJ SERVICES**

**2008-2010**

##### *Equipment Operator - Cementing & Hydraulic Fracturing*

- Supported cementing, hydraulic fracturing, acid stimulation, squeeze cementing, lost circulation, and recompletion services throughout the Permian Basin.
- Performed cementing services on surface, intermediate, and production casing strings while supporting crosslinked gel, slickwater, nitrogen-assisted, and acid stimulation treatments.
- Participated in pre-job meetings, safety reviews, rig-up, high-pressure iron installation, equipment inspections, and field execution activities.

#### **EDUCATION**

##### **Associate of Applied Science (A.A.S.), Industrial Technology | Clovis Community College**

**2010-2012**

Industrial Management Certificate • Industrial Electrical Systems Certificate

Relevant Coursework: SCADA & PLC Systems • Process Control • Power Generation Systems • Principles of Electricity • Principles of Electronics • Electric Motors & Controls • Mechanical Drives • Hydraulics & Pneumatics • Drawings & Schematics • Troubleshooting & Repair • Quality Systems & Control • Environmental Health & Safety

#### **CERTIFICATIONS**

IADC WellSharp Well Servicing Oil & Gas Operator Representative (Live) • Class A CDL • IADC SafeLand / Rig Pass • H2S Awareness • CPR / AED / First Aid • Bloodborne Pathogens • Fire Safety & Fire Extinguisher Training

#### **SELECT OPERATORS SUPPORTED**

Chevron • ConocoPhillips • ExxonMobil • Shell • Hilcorp • Devon • EOG • Marathon • Oxy • Pioneer • Diamondback • Concho  
Chesapeake • Encino • Gulfport • EQT • Antero • Range • Cimarex • Continental • Apache • Hess • Murphy • Southwestern  
Cabot • Ovinativ • XTO • WPX • Newfield • Mewbourne • Ascent • Endeavor • Coterra • Validus • Camino • Laredo

#### **BASINS & RESOURCE PLAYS**

Permian Basin: Delaware • Midland • Wolfcamp • Bone Spring • Sprayberry

Appalachian Basin: Utica • Point Pleasant • Marcellus

Anadarko Basin: SCOOP • STACK • Woodford

Western Gulf Basin: Eagle Ford • Austin Chalk

East Texas / Louisiana: Haynesville • Bossier

San Juan Basin: Mancos

Fort Worth Basin: Barnett

Additional experience in TX, NM, OK, OH, PA, WV, LA, AR, CO, WY, UT, and Canada
